

E-POSTER MAGIX

Innovative Digital Posters

Replace the Paper Poster with innovative digital ePosters.

E-Poster module is a platform for easy collection and display of electronic posters. For each e-Poster speaker is given a unique username and password that will allow him access to the system to manage his e-Posters. Easy sectioning tool allows the speaker to split the e-Poster into smaller areas for better viewing of smaller data such as tables or charts.

e-PosterMagix are presented onsite on touchscreen monitor and both enhance the technology forward look of your meeting, but can be used to drive traffic to particular areas. Those allowing to hold eposter presentations in TED Style.
